- Suggest future ITU-T study items and related actions for various ITU-T study groups for example on:
 1. Concepts, coverage, vision and use cases of digital financial services.
 2. Characteristics and requirements for digital financial services.
 3. Architectural framework for digital financial services including security of mobile transactions.
- Work towards the creation of an enabling framework for digital financial services which could be submitted, through TSAG, for endorsement at the ITU Global Regulators Symposium.
